A: Fragment. Helios on the back of a lion striding right over a mummy lying on the ground. The lion's tail is snake-headed. The god's head is turned right and surrounded with four rays, right hand raised in greeting. Helios wears armour, with chlamys floating behind the left shoulder. In the free field, behind the god's head, two six-pointed stars. On the right side of the gem – now lost – probably the figure of Sigé.

B: Remains of an inscription: $\omega \rightarrow [\dot{1}\dot{\alpha}]\omega$.
